

Arriving at UVA Medical Center

UVA Medical Center is committed to making your visit as smooth as possible. Here are some key points you need to know.

Patient Drop-Off

The main entrances at University Hospital (Northgate), West Complex Jefferson Park, 1222 Jefferson Park Avenue and Emily Couric Clinical Cancer Center are all staffed with front door greeters to provide patients with wheelchairs and assist with other needs. At the West Complex Hospital Drive entrances, patient assistance phones are installed at both entrances (follow the directional signage at the parking booth and both entrances).

Patients displaying handicap licenses or placards on their vehicles will receive parking assistance at University Hospital (Northgate), West Complex Jefferson Park, and Emily Couric Clinical Cancer Center.

Please Allow Extra Time to Reach Your Appointment

We strongly recommend that you allow extra time to reach us, and that you plan arrive at the UVA Medical Center at least 30 minutes prior to your scheduled appointment time to allow for parking and arrival to your care location.
